**The Clock.**—We learn that the clock on the Court-house, is soon to be put in complete order, and kept so. This will be a great public convenience.

The Vicksburg Sentinel is offered for sale—it is said to be one of the most complete establishments in the State.

Billy Bowlegs has been ordered to make himself scarce in Florida. Billy replied to the agent: "If de United States no friend, let him stand still. Me whip de Governor, Florida and him long knife, I—quick." Goit Bowlegs.

The democratic majority on March next, will probably be 15.

**HEIGHT OF LIGHTNING RODS.**—It has been laid down as a rule, derived from experiments made in France on the conducting power of lightning rods, that a rod will protect a circle whose radius is equal to twice the height of the rod. Prof. Loomis of New Haven, states that he has heard of a case where a pile of shavings were set on fire by lightning at the distance of one hundred feet from a lightning rod of fifty-nine feet in height. From this case, Prof. L. concludes that it is unsafe to rely upon a rod to protect a circle whose radius is more than once and a half the height of the rod.

**MARRIED.**—On Thursday evening last, by Rev. W. Hamilton Watkins, Mr. THOMAS J. SMITH, Sr., to Miss REBECCA ELIZABETH BROWN—all of this county.

"Young and purely lovely—yet half afraid, Before you altar stands a plighted maid, Clad in her bridal robes of jet and white, Dumb with the scene and tripping with delight, Around her Hymenal guardians stand, Each with a tender look and feeling bland, While Love a homage blend their blissful power, And shed a halo round their marriage hour."

#### Important Notice.

For Cotton Planters, Farmers, Gardeners, &c.

Destruction of the Caterpillar.

OFFERED for sale, the MARY DIA SATIVA, a seed lately imported to this country from Chili, which is used as a preventive against Caterpillars and Insects.

This plant is endowed with the property of a repellent to all destructive insects, owing to a peculiar and strong odor which it exhales; it secretes moreover a thick viscid juice which deprives of life the winged insect settling on it. Cotton planters may have their cotton crops secured by enclosing their cotton crops with rows of this plant, when once sown a sufficiency of seed will soon be obtained to supply all further wants.

Cotton planters as well as farmers and Gardeners are requested to make a trial. Amongst other characteristics of this plant, it is of a hardy constitution, when ploughed into the ground forms an excellent fodder for sheep, &c. An abundant and good table oil may be obtained from its seeds.

Apply to JOHN GREENFIELD, Seed, Florist, Fruit Trees, Shrub &c.—store, corner of Exchange Place opposite the Post Office on Customhouse street, where all kinds of Garden, Agricultural and Flower Seeds, wholesale and retail, Fruit and Shade Trees Shrubs, Greenhouse plants, &c., including the Fig, Peach, and Banana, Pear, Plum, Orange, Lemon, China and Tallow Trees, Arborvitae, Jasmin, Myrtle, Hydrangea, Aesculus, Camellia Japonica and Flower Buds, are for sale on moderate terms.

Seeds and plants carefully selected and packed in boxes for Europe, California, &c. Country dealers supplied. Nursery, Poland street, Third Municipality, near the Tobacco Warehouse, New Orleans. Feb. 25, 1851—4m.

litionism reigns supreme. Under its influence, political platforms are built and demolished—religious and charitable associations formed and dissolved—ecclesiastical establishments, the most venerable, split in twain—the laws outraged—and the Constitution trampled under foot. At its instigation our slaves have been seduced and incited to revolt—and fanatics proceeded even to the shedding of blood.

Such being the state of public opinion at the North, how long will it be, before the exponents of that public opinion, the North-

#### To the Republican.

MR. EDITOR—You will please insert this notice in your paper, for the purpose of informing the public that we have opened, and intend to keep constantly on hand, at our store in the Kelley building, a general stock of Family Groceries and Plantation Supplies, and we will sell them at the New Orleans prices, by adding on the freight.

This is no humbug—we do not promise to do more than we can, or will do. We know it can be done, and we will do it; let the public call and see, contrast their bills they have to pay in the city with our prices, and they will be satisfied that we are not promising more than we will perform.

Ten per cent. is profit enough for us. That is a good interest on money at any time, though the grocers in the city are not satisfied with that, but their expenses are very high, comparatively speaking, to ours. Therefore, if we can sell for the same profits they do, we must have the cash.

We were raised in Wilkinson county, and have as many claims upon the people, as any Dutchman that ever came from Tichland. But we ask nothing in that way, claim no preference over anybody, farther than what we merit from close attention, fair dealing and punctuality.

If we do not do as well by you as any one else, we do not expect you to trade with us.

Now we are fully before you, Ladies and Gentlemen, and promise to furnish you, at all times, plenty to eat, drink and wear; and that of the best quality, and at living prices, and in any quantity you may want. Call and see us, it will not cost you anything.
